

John Robinson Associates

Utility Survey Specialists & Consultants

Project Scoping.

- Unsure what type of survey to scope?
- Unsure of the technical terms required to fulfil your project requirements?
- Unsure what the final deliverables will be and if they will be sufficient?

We Provide a variety of robust survey specification services that fits a project needs. This is undertaken via Risk Management processes; client needs and requirements.

Using our tested format we are confident that accurate scoping documents that clearly define the survey purpose and specification will be provided. This allow accurate like for like comparison quotes and tenders.
